### **Money, Values, and Investing**

The goal of this workshop is to help participants understand their relationship with money issues and learn how they can manage their financial lives in harmony with their personal goals and values. Through small group discussions and exercises, each participant will begin to create a "money autobiography" to trace where our feelings about money come from and how our life experiences have shaped them. We will explore how we can change our relationship to money so that it helps us live the kind of life we want for ourselves, and helps us contribute to the kind of society in which we want to live. We will learn about sustainable investing (also known as socially responsible investing) and its three strategies of investment screening, shareholder advocacy, and community investing. And, we will explore how our investments can provide financial security while contributing to a more just and sustainable society.

His three beliefs are: Massive change is upon us. Overwhelming change is possible. We can shape the future. His three concluding predictions are: Status quo will be preserved at all costs. Hyperinflation is the likely result. Standards of living will decline.

## **The Cathedral of the World**

The Reverend Dr. Forrest Church, long-time senior minister at All Souls Unitarian Universalist Church in New York City, knew that his cancer was incurable and that he had only a little time left before he died. He decided to use that time writing *The Cathedral of the World: A Universalist Theology*, aiming to sum up his theological worldview and its daily application in the practical world. The result is a concise, clear presentation of his UU views, rooted in the seven principles and honed by a lifetime of deep thought and social action. We will read and discuss the book, encouraging participants to relate their own life experiences to his vision while deepening their own understanding of the vitality and creativity of the UU life.

## **BUUF Childcare Provider Training**

Here at BUUF, we honor and celebrate all ages. In order to welcome all to participate in our many events, classes, meetings, and the other good work we do, we provide paid childcare by trained youth or caring adults. In September or October, join us for a brief orientation to offering childcare at BUUF. This training will include information about our facilities, our policies, and being a vital part of our faith community. Since this not a complete childcare class, we ask that all youth (ages 11 and older, depending on experience) attend and pass babysitting training before they are added to the list of childcare providers for our congregation. Information on local childcare certification classes will be provided, or you can directly contact St. Alphonsus Family Center at 367-7380 or for a more comprehensive program, the American Red Cross Health and Safety Services at 947-4357. ## **Writing the Memoir**

A journal is one thought or many, given form. This could be jottings kept in a drawer, a series of notebooks, an electronic file folder. A memoir is more serious. The memoir seeks meaning, applies a sorting and organizing system to the minutia of life. A journal asks only for time and a recording device; a memoir benefits from dedication, introspection, honesty. This class will have a maximum of shared readings from personal writing, with handouts available for those who want writing prompts or exercises. Contact Jeanette [jross@fortboise.org](mailto:jross@fortboise.org) for any additional information.

**Workshop:** Saturday, October 30, 10 a.m.-1 p.m., north wing classrooms

Exploring myths, fairy tales, and stories from many cultures, as well as the psychology of C G Jung, this lecture and workshop will elucidate some of the dynamics of the vampire and its continuing, undying fascination. Beyond selling books and movies, the symbol of the unclean has some surprising spiritual messages encoded in its DNA. To be freed from the dark fiend, the archetype must be seen and redeemed within ourselves.

**Salon:** Friday, November 19, 7-9 p.m., north wing classrooms

**Workshop:** Saturday, November 20, 10 a.m.-1 p.m., north wing classrooms

There is No Mr. Darcy! Jane Austin's hero in "Pride and Prejudice" is the archetypal romantic hero. Does he wield his influence in this modern age? The lecture and workshop will explore love and partnership in contemporary society from a Jungian perspective using archetypal theory, and the concepts of anima and animus and psychological types.

Participants are encouraged to bring dreams, personal experiences, and images to share.
